

EB-1A Profile Building Extreme Handholding with Paralegal Support (attorney supervised)

June 9, 2026

"From day one: relevant activities + continuous evidence collection + lawyer feedback."

What We Have Been Seeing

☹ The old way:

- Months spent on **irrelevant activities**
- Targeting *top journals* when not important
- No continuous evidence collection → filing delays
- Lawyers only take cases 2–3 months before filing
- **Result:** sign with lawyer, get told you need 5–6+ **more** months

18 months wasted?

“Applicants think they are ready. They are not.”

Instead of That... Do This

Old loop:

- 1 Build profile alone (12–18 months)
- 2 Hire lawyer
- 3 Lawyer says “not ready”
- 4 Another 6–12 months

New model:

- 1 **Day one:** Paralegal (under lawyer supervision)
- 2 Personalized roadmap + monthly updates
- 3 Collect *right* evidence from start
- 4 Lawyer reviews every month
- 5 **Ready to file in 12–18 months**

Paralegal = your daily guide. Lawyer = your strategic oversight.
