

## EB-1A: Paralegal Does Everything – You Just Add Expertise

*"I draft. I set up. I make it ready. You add your findings."*

Attorney supervised – ethical compliance & final review

# What We Have Been Seeing

## ☹ The old way:

- Months spent on **irrelevant activities**
- Targeting *top journals* when not important
- No continuous evidence collection → filing delays
- Lawyers only take cases 2–3 months before filing
- **Result:** sign with lawyer, get told you need 5–6+ **more** months

**18 months wasted?**

*“Applicants think they are ready. They are not.”*

# Instead of That... Do This

## 🗨️ Old loop:

- 1 Build profile alone (12–18 months)
- 2 Hire lawyer
- 3 Lawyer says “not ready”
- 4 Another 6–12 months

## ✅ New model:

- 1 **Day one:** Paralegal guides everything
- 2 Personalized roadmap + monthly updates
- 3 Collect *right* evidence from start
- 4 **Ready to file in 12–18 months**

**Paralegal = your daily builder.**

# What I Do – So You Don't Have To

## You provide:

- Your raw expertise / findings / data
- Your professional experience
- Final review & sign-off

## You own the science.

## I (paralegal) draft & build:

- **Full paper drafts** from your raw notes
- **LaTeX formatting** – submission-ready
- **Zotero library** – citations fully managed
- **Peer review drafts** – you just add insights
- **AI-assisted writing** – faster turnaround
- **Journal submission** – portals, formatting, handling
- **Response to reviewers** (first draft)

I add 80% of the writing + logistics. You add your expertise.

# How Papers Work – You Stay First Author

- You provide: **findings, data, expertise, final approval**
- I provide: **drafting, structuring, LaTeX, references, journal formatting**
- **You are first/corresponding author** – your work, your name
- Goal: **20–30 papers where you did the science, I did the drafting**

*“You don’t need to become a writer. You need a paralegal who writes.”*

# How This Works – You Approve, I Execute

## ✓ **Your only job:**

- Say “yes, publish this”
- Read final drafts (5–10 minutes per paper)
- Attend monthly 15-min check-in

## ✗ **You never:**

- Find journals or submit papers
- Draft peer reviews

## 🤖 **I do 100%:**

- Citation management (Zotero)
- Journal selection & submission
- Peer review drafting
- Responding to reviewers
- Evidence collection for EB-1A

**You focus on your day job. I build your EB-1A profile.**
