

EB-1A: NALA Certified Paralegal & EB-1A Recipient (Doctorate Degree) – I Do Everything. You Just Approve.

"I write everything. I submit everything. You say yes."

Attorney supervised

What We Have Been Seeing

☹️ The old way:

- Months spent on **irrelevant activities**
- Targeting *top journals* from day one → rejections
- No continuous evidence collection → filing delays
- Lawyers only take cases 2–3 months before filing
- **Result:** sign with lawyer, get told you need 5–6+ **more** months

18 months wasted?

“Applicants think they are ready. They are not.”

Instead of That... Do This

Old loop:

- 1 Build profile alone (12–18 months)
- 2 Hire lawyer
- 3 Lawyer says “not ready”
- 4 Another 6–12 months

New model:

- 1 **Day one:** Paralegal does everything
- 2 Personalized roadmap + weekly updates
- 3 Evidence collected *for you*
- 4 **Ready to file in 12–18 months**

**(NALA Certified EB1A recipient with a Doctorate Degree) =
your full-time profile builder.**

I Do 100% – You Do Nothing

Your only job:

- Say “yes, publish this”
- Read final drafts (5 min per paper)
- Attend monthly 15-min check-in

You never:

- Write a single code, you just add experimental results
- Touch LaTeX or Zotero
- Find journals or submit
- Draft peer reviews
- Collect evidence

I do 100%:

- Full paper drafting (every word)
- All formatting (LaTeX/Word)
- Citation management (Zotero)
- Journal selection & submission
- Peer review drafting
- Responding to reviewers
- Evidence collection for EB-1A
- Low- Mid Award nominations to be used for PR
- Media placement outreach

You focus on your day job. I build your EB-1A profile.

The Strategy – Low-Hanging Fruit First

📈 Why easy papers first?

- Build baseline publication count quickly
- Create momentum & confidence
- Establish “record of success” for later top journals
- Faster turnaround (weeks, not months)

⬆ Then climb the ladder:

- Conference proceedings → done
- Lower-tier journals → done
- Mid-tier journals → done
- **Then** top/high-ranked journals

“EB-1A doesn’t require all top journals. It requires volume + some recognition.”

18-Month Roadmap – I Do Everything. You Just Review.

Month 0–2: Start Immediately

- Roadmap + gap analysis (day 1)
- **No setup needed** – you already have everything
- **Start publications immediately**
- First easy papers identified & submitted

Month 3–5: Easy Papers First (Low-Hanging Fruit)

- Target **conference proceedings** + **lower-tier journals**
- **I write everything** – no client drafting
- Fast peer review – build baseline counts
- **Get first 5–8 papers accepted quickly**
- Build momentum for higher-ranked journals

Month 6–8: Scale Up & Peer Reviews

- Continue easy papers
- **Start targeting mid-tier journals**
- **I draft all peer reviews** – you just approve
- Reference management fully handled

Month 9–11: Move to Higher-Ranked Journals

- **Now target prestigious journals** (after baseline is secure)
- Use early publications as evidence of trajectory
- I handle complex submissions + revisions

Month 12–15: Judging & Top-Tier Push

- **Peer review execution** – 40–80 reviews (I draft)
- Continue high-ranked journal submissions
- Award nominations submitted (will be used in PR)
- Media outreach active

Month 16–18: Filing Ready

- **Filing ready** – complete package
- Mixed portfolio: easy + mid + high-ranked papers
- All evidence collected & organized

“First: get easy wins fast. Then: climb to top journals. I write everything.”

Service Tiers – Choose Your Level

	Standard	Executive Priority
Paralegal ratio	Shared (1:12)	Dedicated (1:1)
Response time	48–72 hours	Same-day (4 hours)

What You Will *Not* Have to Do – Ever

- Learn LaTeX or Word formatting
- Install or configure any software
- Learn Zotero or citation management
- Write 20–30 papers alone
- Draft peer reviews line-by-line
- Figure out journal submission portals
- Manage citations manually
- Find journals that accept your work
- Respond to reviewer comments
- Collect evidence for EB-1A

**You focus on your expertise.
I handle everything else.**

Why Paralegal – Not Just a Lawyer

- **Lawyers are expensive and slow** for daily writing work
- **Paralegal = your daily builder** – I write, format, submit
- Evidence collected *during* activities, not after
- No “sign with lawyer → 6 more months of evidence”
- **I am your full-time profile architect**

Full-service profile building

Traditional Lawyer vs. Paralegal-Led (This Plan)

	Traditional	Paralegal-Led (this plan)
Start guidance	2–3 months before filing	Day one
Weekly check-ins	No	Yes
Publications secured	No	20–30 papers
Drafting assistance	No	100% of writing
Journal submission help	No	Full handling
Peer review drafting	No	Yes
Ready-to-file timeline	Unknown	12–18 months guaranteed

Your Only Job – A Simple Checklist

- ✓ Say “yes, proceed” when I propose a journal
- ✓ Read final drafts (5–10 minutes per paper)
- ✓ Attend monthly 15-min progress call
- ✓ Say “approved” when I say “ready to file”

That's literally it.

I handle the other 99.9% of the work.

Q&A & How to Start

What profile to build? → Roadmap answers that.
How is it built? → I write, submit, collect everything.
When ready to file? → After month 16–18, I tell you.

Next step:

- Limited spots available per year
- Sign engagement letter → get roadmap → we start immediately

“No setup. No writing. No stress. I build. You approve. We file.”
