

Standard Operating Procedure: Updating and Organizing Confluence Wiki Pages

Ensuring Accuracy, Accessibility, and Professional Formatting

Your Team Name

August 31, 2026

Agenda: The Broader Story

- 1 Introduction & Master Link
- 2 Page Structure
- 3 Date Block
- 4 Link Management
- 5 Embedded Content & Numbering
- 6 Formatting & Fonts
- 7 Summary & Tables
- 8 Final Checklist
- 9 Confluence Macros
- 10 Summary

1. Introduction & Confluence Hierarchy

Goal

Every Confluence page must serve a specific purpose and connect back to the central Space homepage.

1. Introduction & Confluence Hierarchy

Goal

Every Confluence page must serve a specific purpose and connect back to the central Space homepage.

Action Item: Link to Master/Space Home

- Every single Confluence page **must** contain a hyperlink back to the Space Homepage.
- *Example:* [▶ Return to Space Home](#)

1. Introduction & Confluence Hierarchy

Goal

Every Confluence page must serve a specific purpose and connect back to the central Space homepage.

Action Item: Link to Master/Space Home

- Every single Confluence page **must** contain a hyperlink back to the Space Homepage.
- *Example:* [▶ Return to Space Home](#)

Why?

Confluence relies on parent-child page hierarchies. Users often deep-link via search; they need a clear breadcrumb or explicit link back to the Space root.

2. Logical Reorganization

Adding Headings and Table of Contents

Requirement:

- 1 Add logical Headings (H1, H2, H3, H4).
- 2 Insert a dynamic **Table of Contents** (TOC) using Confluence's TOC macro.

Confluence Best Practice:

```
# Introduction (H1)
## Sub-section A (H2)
### Detailed Point 1 (H3)
#### Nested detail (H4)
## Sub-section B (H2)
```

2. Logical Reorganization

Adding Headings and Table of Contents

Requirement:

- 1 Add logical Headings (H1, H2, H3, H4).
- 2 Insert a dynamic **Table of Contents** (TOC) using Confluence's TOC macro.

Confluence Best Practice:

```
# Introduction (H1)
## Sub-section A (H2)
### Detailed Point 1 (H3)
#### Nested detail (H4)
## Sub-section B (H2)
```

Rule of Thumb: If a section has more than 3 paragraphs, it needs a sub-heading to break the text. Use Confluence's built-in heading styles, not manual bold text.

3. The Date/Review Block

Tracking Timeliness in Confluence

Requirement: Date Block

We must place a date/review block prominently, preferably using Confluence's **Info** or **Note** macro.

3. The Date/Review Block

Tracking Timeliness in Confluence

Requirement: Date Block

We must place a date/review block prominently, preferably using Confluence's **Info** or **Note** macro.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

3. The Date/Review Block

Tracking Timeliness in Confluence

Requirement: Date Block

We must place a date/review block prominently, preferably using Confluence's **Info** or **Note** macro.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

Scenario B (No Date Available - DEFAULT):

- If no specific date exists, **you must add a review date block.**
- *Default Confluence Template:* Reviewed: August 31, 2026 (Next Review: 3 Months)

3. The Date/Review Block

Tracking Timeliness in Confluence

Requirement: Date Block

We must place a date/review block prominently, preferably using Confluence's **Info** or **Note** macro.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

Scenario B (No Date Available - DEFAULT):

- If no specific date exists, **you must add a review date block.**
- *Default Confluence Template:* Reviewed: August 31, 2026 (Next Review: 3 Months)

STATUS: [DRAFT – REVIEW – FINAL] - August 31, 2026

3. The Date/Review Block

Tracking Timeliness in Confluence

Requirement: Date Block

We must place a date/review block prominently, preferably using Confluence's **Info** or **Note** macro.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

Scenario B (No Date Available - DEFAULT):

- If no specific date exists, **you must add a review date block.**
- *Default Confluence Template:* Reviewed: August 31, 2026 (Next Review: 3 Months)

STATUS: [DRAFT – REVIEW – FINAL] - August 31, 2026

Pro Tip: Use Confluence's @mentions in the date block to tag the page owner/reviewer.

4. Correcting and Categorizing Links

No "Naked" Links Allowed

The Rule

Never paste a raw URL. Always use Confluence's **Link** or **Link to Page** macro and provide context.

4. Correcting and Categorizing Links

No "Naked" Links Allowed

The Rule

Never paste a raw URL. Always use Confluence's **Link** or **Link to Page** macro and provide context.

Type	Format
Internal Confluence	 : "See the Design Spec (requires Confluence access)"
SharePoint	 : "Access the Project Drive (authenticate with corporate credentials)"
Repository (Git)	 : "Clone the Source Code (requires VPN access)"

4. Correcting and Categorizing Links

No "Naked" Links Allowed

The Rule

Never paste a raw URL. Always use Confluence's **Link** or **Link to Page** macro and provide context.

Type	Format
Internal Confluence	 Link : "See the Design Spec (requires Confluence access)"
SharePoint	 SharePoint : "Access the Project Drive (authenticate with corporate credentials)"
Repository (Git)	 Repo : "Clone the Source Code (requires VPN access)"

Action: For every link, write **2 lines** of description explaining:

- 1 What the link contains
- 2 Access requirements (VPN, authentication, permissions)

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many Confluence pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many Confluence pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

Requirement 1: Figure Numbers

- Every embedded image **MUST** have a figure number: **Figure 1:**, **Figure 2:**, etc.
- Use Confluence's **Caption** feature or write it manually below the image.

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many Confluence pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

Requirement 1: Figure Numbers

- Every embedded image **MUST** have a figure number: **Figure 1:**, **Figure 2:**, etc.
- Use Confluence's **Caption** feature or write it manually below the image.

Requirement 2: Table Numbers

- Every table **MUST** have a table number: **Table 1:**, **Table 2:**, etc.
- Always add a descriptive caption above or below the table.

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many Confluence pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

Requirement 1: Figure Numbers

- Every embedded image **MUST** have a figure number: **Figure 1:**, **Figure 2:**, etc.
- Use Confluence's **Caption** feature or write it manually below the image.

Requirement 2: Table Numbers

- Every table **MUST** have a table number: **Table 1:**, **Table 2:**, etc.
- Always add a descriptive caption above or below the table.

Requirement 3: Embedded Items

- Check for embedded **Excel sheets**, **PDFs**, **YouTube videos**, or **Jira issues**.
- If embedded, ensure they have:
 - 1 A numbered label (e.g., "Embedded Item 1: Jira Board")
 - 2 A 1-2 sentence description of what the user should look for

6. Corporate Formatting & Font Standards

Fixing the "Corporate Mess"

The Problem

Corporate Confluence pages often have inconsistent fonts, sizes, and colors due to copy-paste from Word/Email.

6. Corporate Formatting & Font Standards

Fixing the "Corporate Mess"

The Problem

Corporate Confluence pages often have inconsistent fonts, sizes, and colors due to copy-paste from Word/Email.

Standardization Rules:

- 1 **Body Text:** Arial / Helvetica (Confluence default) - *Do not use Times New Roman or custom fonts.*
- 2 **Headings:** Use Confluence's built-in heading styles (**H1**, **H2**, **H3**) - *Do not manually bold/underline/color text to simulate headings.*
- 3 **Code/Snippets:** Use Confluence's **Code Block** macro with proper syntax highlighting.
- 4 **Colors:** Stick to the corporate color palette (usually primary blue, gray, black). Avoid neon or random colors.
- 5 **Bullet Points:** Use Confluence's native bullet/numbered list buttons, not manual dashes or asterisks.

6. Corporate Formatting & Font Standards

Fixing the "Corporate Mess"

The Problem

Corporate Confluence pages often have inconsistent fonts, sizes, and colors due to copy-paste from Word/Email.

Standardization Rules:

- 1 **Body Text:** Arial / Helvetica (Confluence default) - *Do not use Times New Roman or custom fonts.*
- 2 **Headings:** Use Confluence's built-in heading styles (**H1**, **H2**, **H3**) - *Do not manually bold/underline/color text to simulate headings.*
- 3 **Code/Snippets:** Use Confluence's **Code Block** macro with proper syntax highlighting.
- 4 **Colors:** Stick to the corporate color palette (usually primary blue, gray, black). Avoid neon or random colors.
- 5 **Bullet Points:** Use Confluence's native bullet/numbered list buttons, not manual dashes or asterisks.

Font Fix Action

Select the entire page content and click "**Remove Formatting**" in Confluence (eraser icon), then

7. Summaries and Tabular Data

Adding Value at the Top

Introduction (Summary):

- Each Confluence page must start with a 2 to 3-sentence **Introduction**.
- It must answer: *”What is this page about and who is it for?” *

7. Summaries and Tabular Data

Adding Value at the Top

Introduction (Summary):

- Each Confluence page must start with a 2 to 3-sentence **Introduction**.
- It must answer: *”What is this page about and who is it for?” *

Table Requirement:

- If data exists, add a structured table with **Table 1:** caption.
- If no data exists, create a placeholder table with **Table 1:** (Status/To-Do).

7. Summaries and Tabular Data

Adding Value at the Top

Introduction (Summary):

- Each Confluence page must start with a 2 to 3-sentence **Introduction**.
- It must answer: *”What is this page about and who is it for?” *

Table Requirement:

- If data exists, add a structured table with **Table 1:** caption.
- If no data exists, create a placeholder table with **Table 1:** (Status/To-Do).

Example (Fixed):

Table: **Table 1:** Page Update Status

Page	Status
Notes	Pending
Links	Fixed

8. Final Confluence Update Checklist

The "Go/No-Go" List

Before saving the Confluence page, verify the following:

8. Final Confluence Update Checklist

The "Go/No-Go" List

Before saving the Confluence page, verify the following:

- 1 **Language:** Grammar and spelling corrected? (No "wrong language").
- 2 **Headings:** Logical H1/H2/H3 structure using Confluence styles?
- 3 **TOC:** Table of Contents macro added at the top?
- 4 **Links:**
 - Are the hyperlinks **working**?
 - Are "naked" links replaced with descriptive text + 2 line summary?
 - Access requirements mentioned (VPN, permissions)?
- 5 **Date:** Date/Review block present using Info macro or manual?
- 6 **Master Link:** Is there a link **back** to the Space Homepage?
- 7 **Figures/Tables:**
 - Are all images numbered (Figure 1, Figure 2, ...)?
 - Are all tables numbered (Table 1, Table 2, ...)?
- 8 **Embedded Items:** Are Excel, PDF, video, or Jira embed links labeled and described?
- 9 **Formatting:** Consistent fonts, no manual bold/color for headings, code in Code Block macro?

8. Final Confluence Update Checklist

The "Go/No-Go" List

Before saving the Confluence page, verify the following:

- 1 **Language:** Grammar and spelling corrected? (No "wrong language").
- 2 **Headings:** Logical H1/H2/H3 structure using Confluence styles?
- 3 **TOC:** Table of Contents macro added at the top?
- 4 **Links:**
 - Are the hyperlinks **working**?
 - Are "naked" links replaced with descriptive text + 2 line summary?
 - Access requirements mentioned (VPN, permissions)?
- 5 **Date:** Date/Review block present using Info macro or manual?
- 6 **Master Link:** Is there a link **back** to the Space Homepage?
- 7 **Figures/Tables:**
 - Are all images numbered (Figure 1, Figure 2, ...)?
 - Are all tables numbered (Table 1, Table 2, ...)?
- 8 **Embedded Items:** Are Excel, PDF, video, or Jira embed links labeled and described?
- 9 **Formatting:** Consistent fonts, no manual bold/color for headings, code in Code Block macro?

✓ All set!

9. Quick Reference: Useful Confluence Macros

Leverage Built-in Tools

Instead of manual formatting, use these Confluence macros:

9. Quick Reference: Useful Confluence Macros

Leverage Built-in Tools

Instead of manual formatting, use these Confluence macros:

Table 2: Essential Confluence Macros

Macro	Use Case
{toc}	Auto-generate Table of Contents
{info}	Highlight important information (blue box)
{warning}	Highlight critical alerts (red box)
{code}	Display code with syntax highlighting
{jira}	Embed live Jira issues
{gallery}	Display multiple images with captions
{excerpt}	Reuse content across multiple pages

9. Quick Reference: Useful Confluence Macros

Leverage Built-in Tools

Instead of manual formatting, use these Confluence macros:

Table 2: Essential Confluence Macros

Macro	Use Case
{toc}	Auto-generate Table of Contents
{info}	Highlight important information (blue box)
{warning}	Highlight critical alerts (red box)
{code}	Display code with syntax highlighting
{jira}	Embed live Jira issues
{gallery}	Display multiple images with captions
{excerpt}	Reuse content across multiple pages

Remember: Using macros ensures consistent formatting across the entire Confluence Space.

Summary: The Broader Story

Our Mantra

"Every Confluence page is an entry point; every link is a doorway; every figure/table has a number."

Summary: The Broader Story

Our Mantra

"Every Confluence page is an entry point; every link is a doorway; every figure/table has a number."

The Five Pillars of Confluence Updates:

- 1 **Clarity:** Clear Intro, Summaries, and Headings.
- 2 **Connectivity:** Correct categorized links + Space Home link.
- 3 **Currency:** Always include a Date/Review block with @mentions.
- 4 **Consistency:** Standard fonts, colors, and macros.
- 5 **Cross-Reference:** Number all figures, tables, and embedded items.
