

Standard Operating Procedure: Updating and Organizing Confluence Wiki Pages

Ensuring Accuracy, Accessibility, and Professional Formatting

Your Team Name

August 31, 2026

Agenda: The Broader Story

- 1 Introduction & Master Link
- 2 Page Structure
- 3 Date Block
- 4 Link Management
- 5 Embedded Content & Numbering
- 6 Formatting & Fonts
- 7 Summary & Tables
- 8 Final Checklist
- 9 Quick Reference
- 10 Summary

1. Introduction & Confluence Hierarchy

Goal

Every Confluence page must serve a specific purpose and connect back to the central Space homepage.

1. Introduction & Confluence Hierarchy

Goal

Every Confluence page must serve a specific purpose and connect back to the central Space homepage.

Action Item: Link to Master/Space Home

- Every single Confluence page **must** contain a hyperlink back to the Space Homepage.
- *Example:* [▶ Return to Space Home](#)

1. Introduction & Confluence Hierarchy

Goal

Every Confluence page must serve a specific purpose and connect back to the central Space homepage.

Action Item: Link to Master/Space Home

- Every single Confluence page **must** contain a hyperlink back to the Space Homepage.
- *Example:* [▶ Return to Space Home](#)

Why?

Users often deep-link via search; they need a clear path back to the Space root for navigation.

2. Logical Reorganization

Adding Headings and Table of Contents

Requirement:

- 1 Add logical Headings (H1, H2, H3, H4).
- 2 Insert a manual **Table of Contents** (TOC) at the top.

Simple Structure:

Table of Contents

1. Introduction

2. Section A

3. Section B

Introduction

Sub-section A

Detailed Point 1

Nested detail

Sub-section B

2. Logical Reorganization

Adding Headings and Table of Contents

Requirement:

- 1 Add logical Headings (H1, H2, H3, H4).
- 2 Insert a manual **Table of Contents** (TOC) at the top.

Simple Structure:

Table of Contents

1. Introduction

2. Section A

3. Section B

Introduction

Sub-section A

Detailed Point 1

Nested detail

Sub-section B

Rule of Thumb: If a section has more than 3 paragraphs, it needs a sub-heading to break the text. Keep it simple and readable.

3. The Date/Review Block

Tracking Timeliness

Requirement: Date Block

Every page must have a prominent date/review block.

3. The Date/Review Block

Tracking Timeliness

Requirement: Date Block

Every page must have a prominent date/review block.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

3. The Date/Review Block

Tracking Timeliness

Requirement: Date Block

Every page must have a prominent date/review block.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

Scenario B (No Date Available - DEFAULT):

- If no specific date exists, **you must add a review date block.**
- *Default Template:* Reviewed: August 31, 2026 (Next Review: 3 Months)

3. The Date/Review Block

Tracking Timeliness

Requirement: Date Block

Every page must have a prominent date/review block.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

Scenario B (No Date Available - DEFAULT):

- If no specific date exists, **you must add a review date block.**
- *Default Template:* Reviewed: August 31, 2026 (Next Review: 3 Months)

STATUS: [DRAFT – REVIEW – FINAL] - August 31, 2026

3. The Date/Review Block

Tracking Timeliness

Requirement: Date Block

Every page must have a prominent date/review block.

Scenario A (Date Available):

- If tied to a specific release/event: Last Updated: 2026-Q2

Scenario B (No Date Available - DEFAULT):

- If no specific date exists, **you must add a review date block.**
- *Default Template:* Reviewed: August 31, 2026 (Next Review: 3 Months)

STATUS: [DRAFT – REVIEW – FINAL] - August 31, 2026

Pro Tip: Add the page owner's name next to the date for accountability.

4. Correcting and Categorizing Links

No "Naked" Links Allowed

The Rule

Never paste a raw URL. Always provide context and a description.

4. Correcting and Categorizing Links

No "Naked" Links Allowed

The Rule

Never paste a raw URL. Always provide context and a description.

Type	Format
Internal Confluence	▶ Link : "See the Design Spec - contains architecture diagrams"
SharePoint	▶ SharePoint : "Access the Project Drive - stores all deliverables"
Repository (Git)	▶ Repo : "Clone the Source Code - main branch is production-ready"

4. Correcting and Categorizing Links

No "Naked" Links Allowed

The Rule

Never paste a raw URL. Always provide context and a description.

Type	Format
Internal Confluence	▶ Link : "See the Design Spec - contains architecture diagrams"
SharePoint	▶ SharePoint : "Access the Project Drive - stores all deliverables"
Repository (Git)	▶ Repo : "Clone the Source Code - main branch is production-ready"

Action: For every link, write **2 lines** of description explaining:

- 1 What the link contains
- 2 What the user will find there

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

Requirement 1: Figure Numbers

- Every embedded image **MUST** have a figure number: **Figure 1:**, **Figure 2:**, etc.
- Write the caption directly below the image in plain text.

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

Requirement 1: Figure Numbers

- Every embedded image **MUST** have a figure number: **Figure 1:**, **Figure 2:**, etc.
- Write the caption directly below the image in plain text.

Requirement 2: Table Numbers

- Every table **MUST** have a table number: **Table 1:**, **Table 2:**, etc.
- Write the caption directly above or below the table in plain text.

5. Embedded Content, Figures & Tables

Fixing Unnumbered Media

Critical Issue Identified

Many pages have embedded images and tables **without** figure/table numbers, making cross-referencing impossible.

Requirement 1: Figure Numbers

- Every embedded image **MUST** have a figure number: **Figure 1:**, **Figure 2:**, etc.
- Write the caption directly below the image in plain text.

Requirement 2: Table Numbers

- Every table **MUST** have a table number: **Table 1:**, **Table 2:**, etc.
- Write the caption directly above or below the table in plain text.

Requirement 3: Embedded Items (Excel, PDF, Video, Jira)

- If embedded, ensure they have:
 - ① A numbered label (e.g., "Embedded Item 1: Project Timeline")
 - ② A 1-2 sentence description of what it contains

6. Corporate Formatting & Font Standards

Fixing the "Corporate Mess"

The Problem

Corporate pages often have inconsistent fonts, sizes, and colors due to copy-paste from Word/Email.

6. Corporate Formatting & Font Standards

Fixing the "Corporate Mess"

The Problem

Corporate pages often have inconsistent fonts, sizes, and colors due to copy-paste from Word/Email.

Standardization Rules:

- 1 **Body Text:** Use a clean sans-serif font (Arial / Helvetica) - *No Times New Roman.*
- 2 **Headings:** Use consistent heading styles - **H1, H2, H3** - *Do not manually bold/underline/color text to simulate headings.*
- 3 **Code/Snippets:** Use a monospace font (Courier New / Consolas) and put in a separate block.
- 4 **Colors:** Stick to the corporate color palette (primary blue, gray, black). No neon or random colors.
- 5 **Bullet Points:** Use consistent bullet symbols (dashes or dots), not a mix.

6. Corporate Formatting & Font Standards

Fixing the "Corporate Mess"

The Problem

Corporate pages often have inconsistent fonts, sizes, and colors due to copy-paste from Word/Email.

Standardization Rules:

- 1 **Body Text:** Use a clean sans-serif font (Arial / Helvetica) - *No Times New Roman.*
- 2 **Headings:** Use consistent heading styles - **H1, H2, H3** - *Do not manually bold/underline/color text to simulate headings.*
- 3 **Code/Snippets:** Use a monospace font (Courier New / Consolas) and put in a separate block.
- 4 **Colors:** Stick to the corporate color palette (primary blue, gray, black). No neon or random colors.
- 5 **Bullet Points:** Use consistent bullet symbols (dashes or dots), not a mix.

Quick Fix

Select the entire page content, clear all formatting, and re-apply correct heading styles manually.

7. Summaries and Tabular Data

Adding Value at the Top

Introduction (Summary):

- Each page must start with a 2 to 3-sentence **Introduction**.
- It must answer: *”What is this page about and who is it for?” *

7. Summaries and Tabular Data

Adding Value at the Top

Introduction (Summary):

- Each page must start with a 2 to 3-sentence **Introduction**.
- It must answer: *”What is this page about and who is it for?” *

Table Requirement:

- If data exists, add a structured table with **Table 1:** caption.
- If no data exists, create a placeholder table with status.

7. Summaries and Tabular Data

Adding Value at the Top

Introduction (Summary):

- Each page must start with a 2 to 3-sentence **Introduction**.
- It must answer: *”What is this page about and who is it for?” *

Table Requirement:

- If data exists, add a structured table with **Table 1:** caption.
- If no data exists, create a placeholder table with status.

Example (Fixed):

Table: Table 1: Page Update Status

Page	Status
Notes	Pending
Links	Fixed

8. Final Confluence Update Checklist

The "Go/No-Go" List

Before saving the Confluence page, verify the following:

8. Final Confluence Update Checklist

The "Go/No-Go" List

Before saving the Confluence page, verify the following:

- ① **Language:** Grammar and spelling corrected?
- ② **Headings:** Logical H1/H2/H3 structure using consistent styles?
- ③ **TOC:** Table of Contents present at the top (manual list)?
- ④ **Links:**
 - Are the hyperlinks **working**?
 - Are "naked" links replaced with descriptive text + 2 line summary?
- ⑤ **Date:** Date/Review block present?
- ⑥ **Master Link:** Is there a link **back** to the Space Homepage?
- ⑦ **Figures/Tables:**
 - Are all images numbered (Figure 1, Figure 2, ...)?
 - Are all tables numbered (Table 1, Table 2, ...)?
- ⑧ **Embedded Items:** Are Excel, PDF, video, or Jira embed links labeled and described?
- ⑨ **Formatting:** Consistent fonts, no manual bold/color for headings?

8. Final Confluence Update Checklist

The "Go/No-Go" List

Before saving the Confluence page, verify the following:

- ① **Language:** Grammar and spelling corrected?
- ② **Headings:** Logical H1/H2/H3 structure using consistent styles?
- ③ **TOC:** Table of Contents present at the top (manual list)?
- ④ **Links:**
 - Are the hyperlinks **working**?
 - Are "naked" links replaced with descriptive text + 2 line summary?
- ⑤ **Date:** Date/Review block present?
- ⑥ **Master Link:** Is there a link **back** to the Space Homepage?
- ⑦ **Figures/Tables:**
 - Are all images numbered (Figure 1, Figure 2, ...)?
 - Are all tables numbered (Table 1, Table 2, ...)?
- ⑧ **Embedded Items:** Are Excel, PDF, video, or Jira embed links labeled and described?
- ⑨ **Formatting:** Consistent fonts, no manual bold/color for headings?

All set!

9. Quick Reference: Simple Formatting Guide

Keep it simple, keep it consistent

Table: **Table 2:** Formatting Quick Guide

Element	How to Format
Main Title	Bold, larger font, center aligned
Section Heading	Bold, left aligned (H1)
Sub-section	Bold, left aligned (H2)
Body Text	Normal font, left aligned
Bullet List	Use dashes (-) or dots (●) consistently
Numbered List	Use 1., 2., 3. consistently
Code	Monospace font (Courier New) in separate block
Images	Add "Figure X:" caption below
Tables	Add "Table X:" caption above
Links	Hyperlink the text, never show raw URL

Summary: The Broader Story

Our Mantra

"Every Confluence page is an entry point; every link is a doorway; every figure/table has a number."

Summary: The Broader Story

Our Mantra

"Every Confluence page is an entry point; every link is a doorway; every figure/table has a number."

The Five Pillars of Confluence Updates:

- 1 **Clarity:** Clear Intro, Summaries, and Headings.
- 2 **Connectivity:** Correct categorized links + Space Home link.
- 3 **Currency:** Always include a Date/Review block.
- 4 **Consistency:** Standard fonts, colors, and formatting.
- 5 **Cross-Reference:** Number all figures, tables, and embedded items.
